

ACM@UVa: HSPC

To Whom It May Concern:

I am writing concerning a sponsorship opportunity for the ACM@UVa's 7th Annual High School Programming Contest (HSPC).

What is the HSPC?

The HSPC is a programming contest held at UVA in which approximately 200 high school students across the Mid-Atlantic region participate each year.

The High School Programming Contest provides a fun and exciting opportunity for students to explore Computer Science concepts. It also promotes the engagement of underrepresented groups and encourages students to consider further studies and/or a career in Computer Science.

Former competitors have cited participation in the HSPC as what drew them both to the University of Virginia and to CS as a career path.

Sponsorship Levels

Running a contest of this size requires substantial resources--time, volunteers, and financial support. We hope that you will partner with us to provide this opportunity to high schoolers across the Mid-Atlantic region. Based on your sponsorship contribution, we will feature your company's name and logo on our website, signs and fliers, and/or the competition t-shirt:

	HSPC Website	Signs and Fliers	Competition T-Shirt
Gold (\$1500 or more)	X	X	X
Silver (\$1000)	X	X	
Bronze (\$500)	X		

Your contribution would be used to give each contestant, coach, and volunteer a t-shirt, provide lunch, and award prizes to top teams.

I would be thrilled to answer any questions you might have. You can also visit our website at <http://acm.cs.virginia.edu/hspc.php> for more information. Thank you for your time and consideration.

Marina Sanusi

ACM@UVa HSPC Director
